FULL BODY STONEWARE

Versatile
Compact Sintered Surface

iMarble Fullbody Stoneware An Intelligent Choice

Over conventional Counter Top Substrates i.e. Stone, Marble, Granite, Quartz ect.

Functionality

- Excellent Weatherability • Resin Free • Stain Resistant
- Convenience of Molding, Shaping & Squaring
- No Deformation due to Temperature
- No Colour Fading due to Sun Light/UV Exposers
- No Erosion or Decomposition over the Prolonged Service Life
- Durable & Crack Free Surface

Physical Characteristics

- Resistance to UV Rays & High Temperature
- Water Impermeable
- Frost Resistance
- Chemical Resistance
- Flame Resistance
- No Hazardous Emittance
- Hygienic & Safe Surface
- Erosion Resistance
- Acoustic Insulation
- No Toxic Fumes
- Resist Algae Formation

Technically Advance

- Homogeneous & Compact Body Structure
- High Abrasion Resistance
- Impact Resistance
- Thermal Shock Resistance
- High Flexural Strength

Aesthetically Appealing

- Available in Vivid Colour Choices
- True High Definition Digital Graphic Printing
- Resembles to Italian Marbles
- Follows Global Design Trends
- Unique & Modern Product

Convenience & Peace of Mind

- Easy to Handling & Transport
- Easy & Cost Effective Installation
- Quality Assurance & Consistent Supply
- Large Batch Production - Assured Availability
- Low Care & Maintenance
- Environment Friendly
- Easy to Clean
- Safe & Easy Disposal

INCREDIBLY ITALIAN

FULL BODY STONEWARE

Thanks to the characteristics of the production process (high firing temperature, raw materials of great quality, sinterization process), the surface of the Qutone Tiles & Slabs slabs are waterproof (the water absorption is minimum). Therefore the dirt cannot penetrate, but it is necessary to remove it from the surface.

For cleaning the surface, do not use detergents containing waxes or waxing products. In order to avoid the forming of greasy layers, for choosing the most appropriate detergent, refer to the following table. After the installation of floors, particularly those made with polished materials, the surfaces should be adequately protected with particle board or other suitable materials in order to protect the surface from dirt and damage due to on-site processing.

Below are some of the substances indicated to remove stains. The instructions are grouped by type of product and do not contain references to specific detergents. However, these features are clearly indicated on the labels of detergents available in the market.

Care Advice

Qutone Tiles & Slabs are high temperature resistant. However, it is always advisable to use an adequate pan-support whenever hot cookware should be placed on the slab surface. Use a chopping board to cut/prepare foods instead of bare Tile/Slab surfaces.

Qutone Tiles & Slabs are very tough and have high impact resistance, However- avoid falling of sharp object /heavy substances directly on to the surface.

Qutone Tiles & Slabs matt finishes have high scratch resistance compare to polished, satin & pearl finishes. However, avoid dragging, scrolling or moving heavy objects on the surface. Instead lift & move the objects from one place to another

Avoid using strong acids high concentration of floor cleaners. Manufacturer guidelines on the use of floor cleaners should be strictly followed.

Possible breakages can be repaired with adequate and specific resins. Before repairing, check that the colour of the resins that are used for the reparation operations and the slab colour are the same.

If stains have contracted on the Tile or Slab surface for a short time, they can be easily removed with the use of a rag and hot water. Avoid movement on damp surface.

Cleaning Advice

Cement adhesive	- Acidic detergent
Grouting remnants	- Acidic detergent
Organic stains	- Alkaline detergent
Felt pen	- Solvent (Methylated Spirits, Acetone, Ethanol)
Rubber remnants	- Alkaline detergent, Solvent
Pencil marks	- Soft rubber
Grease and Dirt	- Bicarbonate and water
Dyes	- Dilute bleach solution
Iodine or Bromine Blood	- Acidic detergent, hydrogen peroxide or dilute bleach solution, ammonia
Silicone	- Hydrogen peroxide or dilute bleach solution
Coffee, Tea, Food, Fruit	- Ceramic hob scraper, Cloth soaked in acetone. Normal detergent dissolved in hot water
Juice or Make-up	- Hydrogen peroxide or bleach

Technical Specifications
