

Jaquar
WORLD

complete bathroom solutions

Global Headquarters

Net Zero Energy Building spread over 48,000 sq. m.

Conceived back in 1960, Jaquar Group is built on the platform of highest quality standards, aesthetics and with the intent of exceeding customer expectation. Today, Jaquar Group caters to premium and luxury bathroom segments with Jaquar and Artize brands respectively for residential and commercial sectors across the globe as a one-stop destination for all bathroom products.

What sets the Jaquar Group apart

- A rapidly growing multi-diversified 'Complete Bathroom Solutions' company with a turnover of \$0.55 billion (USD) in 2018-19
- One of the fastest growing bathroom company in the world with presence in over 45+ countries across Europe, Middle East, Asia-Pacific and Africa
- Headquartered in the National Capital Region of India, in one-of-a-kind eco-friendly "Net Zero Building" spread over a sprawling space of over 48,000 sq. m. that's been awarded the LEED Platinum Certified rating from the United States Green Building Council (USGBC), the highest level of green building certification awarded to a building
- In line with the mission to deliver unparalleled bathroom products, the Group has 6 state-of-the-art manufacturing units spread over 270,000 sq. m, equipped with modern machinery and processes
- Currently, the Group delivers over 2.1 million bathrooms every year
- The Group produces 125,000 faucets on a daily basis
- The Group today has a dedicated workforce of more than 9,800 employees across the globe
- Adhering to global quality certification, the Group's manufacturing setup is a zero-waste plant recycling 150,000 litres of water every day and 1,200 tonnes of brass recycled every year. Embracing green philosophy, Jaquar Group unit generates 5.4 MW of solar energy
- The Group has recently launched Jaquar World-the complete bathroom destination lifestyle showrooms across the world showcasing unique features like wide range of products and concepts from leading global bath brands i.e. Jaquar and Artize, expert advice, design consultancy and unmatched customer service

Complete Bathroom Destination Showroom

Dubai | Singapore | Addis Ababa | Kuala Lumpur | Tunisia | Milan | Dhaka | London | Riyadh | Polokwane

Jaquar World is a global destination where a customer could walk in, conceptualise one's own bathroom concept; get professional inputs in design and technical issues that help make one's concepts into reality; get first-hand experience of what one is about to make; and find all the relevant products and services with an unmatched customer support that goes beyond the online or over-the-phone service, to ensure one enjoys uninterrupted bathing pleasure.

Focusing on Complete Bathroom Solutions, Jaquar World offers everything one could dream of in the bathroom space through two of its most respected global brands - Jaquar and Artize – which conform to the highest quality standards and have been awarded several global design and excellence awards. The range includes Faucets, Sanitaryware, Showers, Wellness, Shower Enclosures, Flushing Systems, Bathtubs, Water Heaters and Bathroom Accessories.

Committed to helping customers turn their customised bathroom concepts into reality, Jaquar World has kept a team of well-trained design consultants, sales and customer service professionals ready.

Jaquar Group designs are the perfect synthesis of form and function. At Jaquar Group, product designs meet global parameters of ergonomics, finish, material, safety, environmental impact and functionality. Jaquar products, designed by globally renowned designers, dominate millions of hearts across the world.

With a strong Research and Development Department that employs cutting-edge processes and equipment, our designers have the best of what modern technology has to offer. Such innovations, combined with the best brains in the industry and stringent quality checks of international standards, ensure an end product that is high in both, functionality and aesthetic appeal.

Coordinated Bathroom Designs that go with your lifestyle

There are people who are glad to have the most exquisitely designed and precision engineered products in their bathroom. Then, there are a few more who demand a premium range of bathroom fittings that also coordinate well with each other. It's for such connoisseurs that Jaquar has created coordinated designs that flow from tap to basin, shower to bathtub, ceramic to accessories...Products that let bathrooms make an impeccable impression with their well coordinated looks and complement their style.

Built on the Highest Quality Standards

Continuously striving to create value and exceeding customers' expectations in quality, delivery and cost effectiveness through continuous product innovation and cutting edge technologies have been the core of Jaquar manufacturing philosophy. Penchant for innovation and use of advanced technology sets Jaquar apart from others. The highest standards of our products in every category have cemented our reputation as one of the most valued premium global bathroom brand in the industry.

Delivering Excellence Through R&D

Zero-defect is a quality absolute that governs all our products and designs. To ensure performance and longevity, all our products undergo a series of rigorous tests at our R&D Centre that's equipped with the latest technology and advance testing processes.

- Design: Full-fledged design department
 - Equipped with latest 3D modeling design softwares
 - Team of ace designers and engineers
- Product Development
 - Advanced prototyping machine for product modeling

State of the art lab facilities

Atomic Absorption Spectrophotometer

Tests impurities in plating solutions. Maintains high quality plating for longer life.

Tests for optimum plating thickness

Flow Rate Test

Tests for maximum flow efficiency

Pneumatic Air Test

Air test for leak-proof functioning

UV-Visible Spectrophotometer

To test organic compounds in raw materials
Maintains parameters for high quality plating –
for enhanced product life

Technology that saves water...

Technology that saves water!

As a major global manufacturer of bathroom products, we at Jaquar are well aware of our responsibilities. Conservation of precious water as a natural resource has long been the primary goal of our sustainability efforts to help preserve the living planet for our future generations. Go Green is a philosophy embraced by Jaquar as a tenet of its design and production system to save water.

Flow Restrictors

This is a revolutionary technology that lets your faucets and showers save up to 80% of water without compromising on the flow. Jaquar Flow Restrictors adjust the flow in both low and high pressure conditions and offer the same voluminous flow every time.

Air Showers

Jaquar's Air Showers have a built-in air mixer that mixes air and water in a manner that makes shower drops lighter but voluminous. This revolutionary technology helps Jaquar Air Showers save up to 30% of water without compromising on the showering experience. Choose from a wide range of Hand and Overhead Jaquar Air Showers with single and multi-flow options.

Pressmatic Faucets

Faucets with technology that allows only a fixed quantity (750 ml) of water to flow with every press of its knob. This mechanism not only prevents water wastage during each use, but also provides ease of operation. Jaquar Pressmatic Faucets are recommended for bathrooms of high traffic locations like restaurants, clubs, hotels, colleges, hospitals, airports, etc.

Sensor Faucets

Faucets with technology that allows water to flow only when you need it and shuts it as soon as you move your hands away, resulting in zero wastage of water. There's no better way to save water than turning it off when you don't need it. Example, while washing hands with soap, you can save water when lathering. Use Jaquar Sensor Faucets in high traffic areas like restaurants, clubs, hotels, colleges, hospitals, airports, etc.

Three stages of washing hands with Sensor Faucets

Water consumption chart

	Time consumption in seconds			Water Consumption (A+B+C Stage)	Saving
	A	B	C		
Single Lever Basin Mixer	5	12	7	4.31 L	BASE*
Sensor Faucet	5	Not in use	7	1.8 L	59%
Pressmatic Faucet	8	Not in use	8	3.01 L	31%

*Base calculation is taken on Florentine basin mixer at 1 bar pressure

Flushing Systems

In order to bring you the latest and the most advanced bath products, Jaquar, a complete bathing solutions provider presents a design revolution - the superbly designed high quality flush plates manufactured by SIAMP and marketed by Jaquar.

Besides modern designs that offer a sleek look to bath spaces and outstanding features like water-saving, easy access maintenance and anti-condensation, Jaquar Concealed Cisterns ensure that your bathrooms look spacious, clean and hygienic at all times.

Jaquar's floor standing frames with concealed cisterns not only provide the benefits of easy, quick and perfect installation, but also allow you to choose contemporary wall mounted sanitaryware of your choice for the bathroom.

Features:

- Easy installation
- Perfect easy alignment
- Load bearing capacity
- Adjustable height
- Wide compatibility of WC

iFlush
Intelligence that saves

i Flush

The intelligent flushing mechanism that installs directly in the normal pipeline!

i Flush advantages

- Aesthetic appeal
- Easy maintenance
- In-built control valve
- Installs directly in 20 mm (3/4") pipeline
- Makes flushing less noisy than cisterns
- Works even at a pressure as low as 1.5 bar
- No need to wait if waste is not cleared in one flush
- Saves money and saves the space needed for a flush tank
- Installs in a 4" wall - no need to construct a separate ledge wall
- Makes repeated flushing possible, unlike concealed cisterns which take time to fill up after flushing

Shower Enclosures

Shower Enclosures

Jaquar's Ready-to-Fit Shower Enclosures are a must for every bathroom to minimise the dangers of slipping and falling. Readily available in standard sizes, these Shower Enclosures separate dry and wet areas and optimise bath spaces. These are made with toughened safety glass, high quality hinges and brassware. With easy clean property, these enclosures come with a 5 years' warranty on hardware.

Features:

- Jaquar's Ready-to-Fit Shower Enclosures are a must for every bathroom to minimise the dangers of slipping and falling.
- Readily available in standard sizes • Separates dry and wet areas and optimises bath spaces
 - Easy Clean (Anti-Limescale Treatment) • Brass Hardware • Made of toughened safety glass and high quality hinges
 - Choose from Frameless, Semi-framed and Framed enclosures • One-stop solution (Design – Installation – Maintenance)
 - Available at leading sanitaryware stores • 5 Years Warranty on Hardware

Glass:

Tempered glass: Option of 6 mm, 8 mm and 10 mm. Advantages of tempering/toughened glass:

1. 4-5 times stronger than normal float glass
 2. Breaks into small pieces/dices minimising risk of injury
 3. Can resist thermal stress as edge strength is higher. Tempering done at Jaquar's own fully automatic state of the art tempering unit
- Tempering for shower enclosure glasses only
 - 90% of an enclosure is glass, so glass must conform to the highest safety standards as it is used in the bathroom

Quality checks:

- Fragmentation test: To check breakage pattern of glass • Zebra test: No waviness
- Ball drop test (impact resistance): To check strength at point of impact
- Visual defects: To check bubbles, scratches, chipping at edges and other visible defects
- Free fall test: To check overall strength of glass, by throwing the glass freely on a plain surface

Standards:

- These standards ensure that the glass passes stringent quality parameters
- Ensures consistency
- Enhances life of the product conforms to European standards

Reference: Europe

- En 14450: 2000 • Adheres to European toughening norms

Reference: India

- IS 2553 (part 1: 1990) • IS 14900: 2000 • IS 2835: 1987

Wellness
at your home

Water Heater

Every bathroom needs a different size of water heater depending on the climate of the place, the kind of fittings used and the number of people who use it. Rain showers, bathtubs and whirlpools need larger water heaters, while kitchens require smaller-sized ones.

Jaquar has introduced a full range of modern water heaters ranging from 6 litre for your kitchen to 500 litre for large homes. Jaquar's range of water heaters has been developed to work in tough conditions with features that offer more safety, more savings and more life built-in. Ask your Jaquar Bath Expert to recommend the right one for your needs.

Jaquar offers a wide range of water heaters using different energy sources - Electric, Gas & Air to Heat water heaters (Heat Pump).

Features:

More Safety:

Double Safety Thermostat

Multi-Function Safety Valve

Earth Leakage Circuit Breaker

More Life:

High Quality Glass Lined Heating Element

More Savings:

Faster Heating

Cathodic Protection

Energy Saving High Density PUF Insulation

More Features*:

Digital Controls and Display

7 Years Warranty* on Tank

ShowerTronic iV6/iV2

Intuitive unwinding for the discerning

Artize ShowerTronic iV6 is a touch based-intelligent water mixer system, which automatically maintains the water temperature and flow rate during showering. It comes with a host of features designed to deliver the ultimate showering experience.

Temperature and flow as you like it:

How does Artize ShowerTronic iV6 do a better, more precise, more reliable job of giving you water at the temperature you desire?

The answer lies in the advanced technology that lies behind the beautiful, simple waterproof touchpad interface - a perfect balance between functional simplicity and technical complexity.

ShowerTronic iV6's innovative electronic thermostatic mixing system has 6 electronic valves, and multiple sensors. These are connected to a state-of-the-art intelligent control software managing all showering operations.

ShowerTronic iV6 also has its own battery back up to give you uninterrupted showers in case of power failures.

It also offers convenience and safety features like warm-up mode, auto clean, thermal disinfection, on-screen alarms and auto cut-off.
